

Error E1: Short Circuit Error

- If errors persist without connecting any attachment, the **Control Unit** has Short Circuit, and needs to be replaced.
- If error E1 after connecting an attachment, cause might be:
 - Heating element short circuit (need to replace)
 - Wrong wiring, might be temperature sensor presented (likely, if not our attachment)

Error E2: Open Circuit Error

- No attachment connected, connect an attachment.
- If an attachment connected, causes might be:
 - the heating element inside might be burnt (check continuity to make sure)
 - Wrong wiring, no close loop present (likely, if not our attachment)

Error E3: Thermal Sensor Init Error

The **Control Unit** damaged, needs to be replaced.

SKU for Spare Parts:

H-CONTROL	Heatware Heat Press Control Unit with Temperature & Timer Controller
H-PRESS/CAP	Heatware Heat Press Caps, Hats & Beanies Heating Pad
H-PRESS/CUP350	Heat Press 350ml Cone Shaped Cups Heating Pad Attachment
H-PRESS/CUP500	Heat Press 500ml Cone Shaped Cups Heating Pad Attachment
H-PRESS/DISK12	Heatware Heat Press Φ 120mm+ Round Disk Heating Pad
H-PRESS/DISK15	Heatware Heat Press Φ 150mm+ Round Disk Heating Pad
H-PRESS/FLAT	Heatware Heat Press 290×380mm Flat Heating Board Attachment
H-PRESS/FLAT/E	Heatware Heat Press 380×380mm Flat Heating Board Attachment
H-PRESS/MUG240	Heatware Heat Press 240ml Cylinder Mugs Heating Pad Attachment
H-PRESS/MUG320	Heatware Heat Press 320ml Cylinder Mugs Heating Pad Attachment, with Connector

H-MAT/2938	Silicone Foam Rubber Mat, 290×380mm Size and 8mm Thickness (Blue)
H-MAT/3838	Silicone Foam Rubber Mat, 380×380mm Size and 10mm Thickness (Brown)
H-PRESS/ARM	Heatware Multitalent Heat Press Extension Arm with Column Housing
H-PRESS/ARM/E	Heatware Multitalent Heat Press Extension Arm with Column Housing for 3838 Heat Press Unit
H-PRESS/CUP	Heatware Heat Press Cup and Mug Press and Lock Stand
H-PRESS/HANDLE	Heatware Multitalent Heat Press Handwheel with Crank Handle, Shank 10mm, Diameter 80mm
